Chris Butterworth

THE ESSENCE OF EXCELLENCE

Creating a culture of continuous improvement

EXECUTIVE COURSE

Workshop Content

Over the past 5 years Peter Hines and Chris Butterworth have conducted research within 100 companies worldwide. Of these, around 40 have shown themselves to have, in their different ways, the essence of excellence we were looking for. This has culminated in the book *The Essence of Excellence* launched in January 2019.

In the book, Peter and Chris explored what separates the really great from the merely good. The answer lies not in what you see, or the tools people use, but in the feel, the pure essence of these organisations. It is the mind-set, the language, the confidence and the sheer passion for excellence. What these sites do have is a set of principle-led behaviours, effective core operating systems and a very sustainable approach.

Who is it for?

This course is designed for Senior Managers at either a group, division, or site role who wish to develop a truly effective Lean journey and want to go beyond tool-based approaches that do not always sustain well.

What is the Executive Course?

£1495

The executive course is a highly interactive three days course hosted at an exemplar company. It is delivered through a series of highly interactive on-site workshops, covering the following:

- Find out what the essence of excellence is
- Tour of the facility to see excellence in action
- Discover how to develop the essence of excellence
- Test your understanding of excellence in three gemba assessment visits
- Develop your own journey to excellence
