TPM MASTERCLASS

€950

COURSE CONTENT

Join us for this 2 day Masterclass which focuses on the Total Productive Maintenance model developed by Peter Willmott and Andy Brunskill. This workshop will explore both what and how to deploy an effective, systematic approach to TPM. We will look at the use of the appropriate lean thinking tools and systems, and at the leadership and engagement systems that will support sustainable change. We will also illustrate how TPM aligns with systems thinking and the ideal behaviours implicit in The Shingo Model™.

WHY ATTEND?

By attending this workshop you will:

- ▶ Gain an understanding of how to use the 11 step TPM model.
- ▶ Be able to measure & understand key metrics in relation to TPM.
- ▶ Undertake a criticality assessment and develop refurbishment plans.
- ▶ Discover how to manage the problem prevention cycle.
- ▶ Understand how to make systematic & effective change through skills development, leadership and deploying the right behaviours.

ABOUT THE HOST SITE

Integer Holdings Corporation is one of the largest medical device outsource (MDO) manufacturers in the world serving the cardiac, neuromodulation, vascular and portable medical markets. The company provides innovative, high-quality technologies and manufacturing to Medical Device OEM's to enhance the lives of patients worldwide. In addition, it develops batteries for high-end niche applications in energy, military, and environmental markets.

PRESENTED BY:

Andy Brunskill

I have been deploying business excellence systems for over thirty years and I have been supporting businesses all over the globe with business improvement techniques specialising in TPM during my tenure with S A Partners.

Andy Brunskill
