The perfect place to start your digital transformation journey

Plan, map, then manage your business processes with Nintex Process Manager.

PLAN

Define the processes that can make the most impact to your organization.

MAP

Design simple process maps in collaboration with others in your organization.

MANAGE

Govern process participants to drive continuous process improvements.

PROCESS MANAGEMENT SIMPLIFIED

Turn complex process maps, documents, or Visio charts into simplified process maps with Nintex Process Manager. Create consistent, compliant, and easy to access process maps in no time. Plus, ongoing process management is simple with an intuitive, easy-to-use interface, personalized dashboards, and capabilities that encourage process ownership, access, collaboration, and engagement.

BRINGING BUSINESS OPERATIONS TO LIFE QUICKLY AND EFFICIENTLY

Map, evaluate then improve your processes with ease and support continuous improvement initiatives with an easy-to-use software that does not require any formal training so you can start mapping your first process in just minutes.

COLLABORATE WITH REAL-TIME FEEDBACK

Empower your team by assigning ownership and accountability with the support of real-time reporting, recalculation, and collaboration tools that make it easy to analyze staff feedback and then optimize relevant processes.

SMOOTHER, FASTER, AND LESS RISKY PROCESS CHANGE

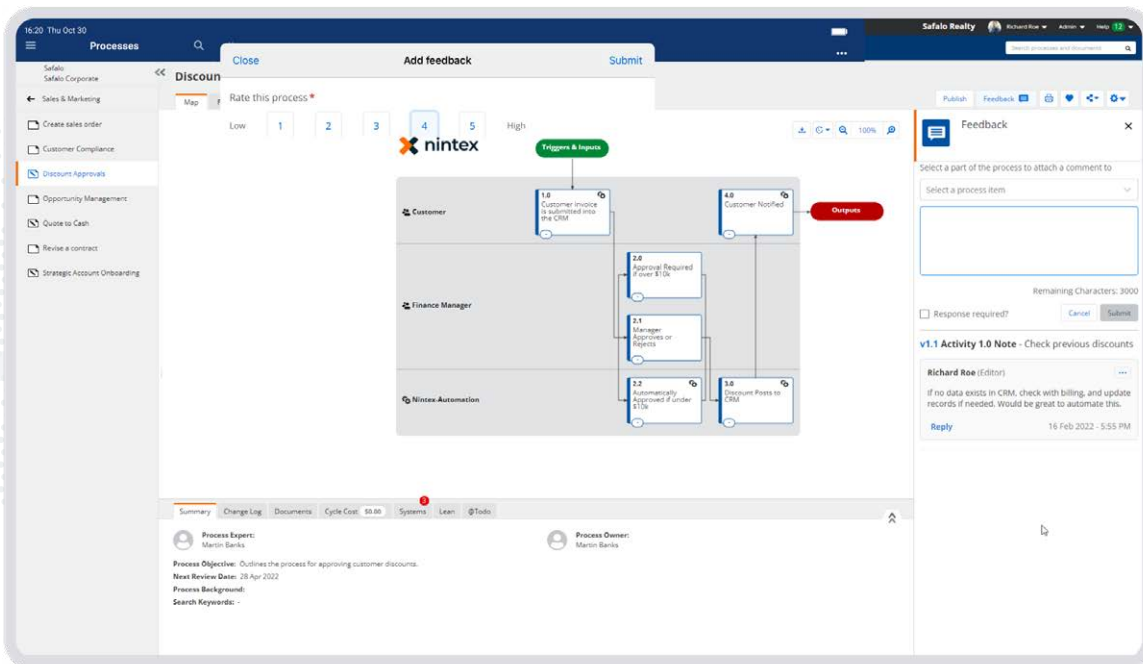

Increase your auditability by configuring approvers, stakeholders, and editors for faster process approval. And reduce risk with embedded control points in live processes and mandatory approvals, escalations, and notifications.

CONTROL PROCESS VARIATIONS AND ELIMINATE INEFFICIENCIES

Create configurable variation lists to standardize your processes across global teams and standardize multiple processes with controlled variations to eliminate duplicates and reduce ongoing management efforts.

IMPROVE PRODUCTIVITY WITH PROCESS MAPS

Personalized dashboards provide total process visibility with live state changes. Real-time process health summaries include team engagement insights and automated process tracking, so you will always know what is published, unpublished and where reviews are needed.

Nintex Process Manager's visual process mapping and feedback capability.

SAFEGUARD OPERATIONS FROM KNOWLEDGE DEBT

Operational efficiency is safeguarded from knowledge loss when staff permanently depart the organization or take leave. Well-documented processes will ensure new staff are proficient sooner, with less operational impact.

BEST-IN-CLASS SECURITY

Nintex has partnered with global leader Microsoft Azure to offer you a safe, secure, high availability experience. All regional data centers meet ISO 27001, PCI, SOC security standards, as well as many region-specific regulatory requirements.

FLEXIBILITY TO GROW WITH YOU

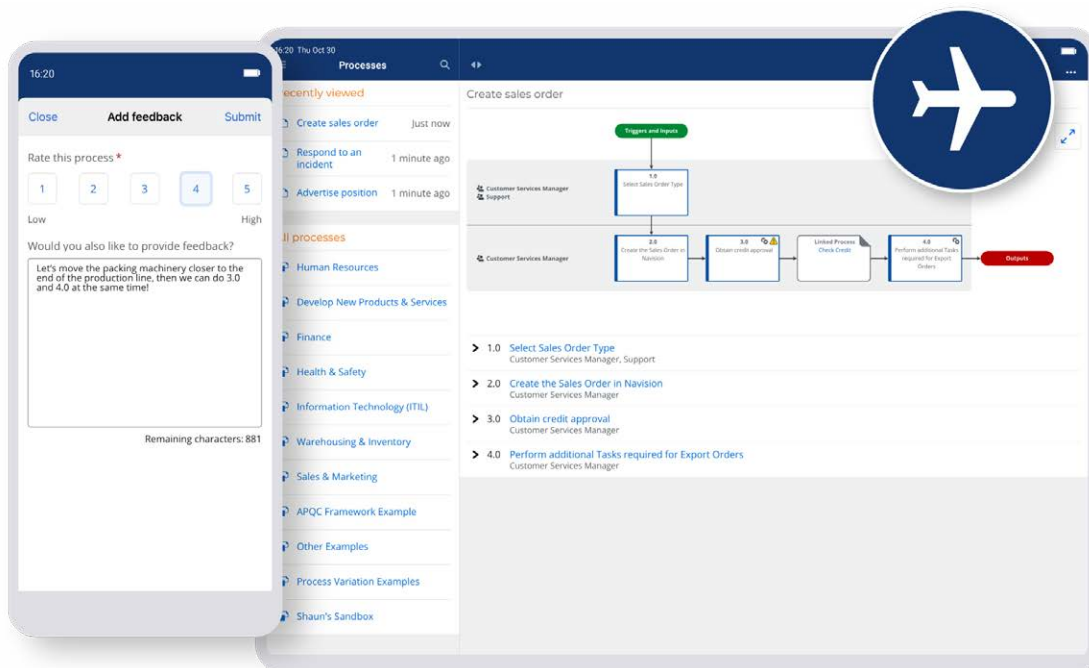

As your digital transformation journey progresses, your headcount and the number of processes documented may grow. Nintex Process Manager can continue to accommodate your growing needs to ensure your process excellence journey is supported.

ANYWHERE ANYTIME ACCESS TO ALL YOUR BUSINESS PROCESSES.

Nintex Process Manager offers a feature-rich process mapping solution without the need for expensive servers, IT hardware, or personnel. Free up your staff to work from the office, from home, or on the road. The only thing you need is a web browser and internet connection to access your business processes, wherever and whenever you want.

The Nintex Process Manager Mobile app will further mobilize your workforce. The app allows you to share, change or comment on processes, depending on predefined levels of access, so employees can securely access processes that are relevant to them, reducing the risk of process and protocol deviations and unnecessary user licenses.

Improve process productivity. Capture and respond to process feedback and share processes with colleagues even if offline. Keep processes running smoothly and seamlessly, no matter where you are working from.

Nintex Process Manager industry leaders

Hundreds of global enterprises and government agencies leverage Nintex Process Manager to plan, map and manage their processes.
